STATEMENT LETTER OF RESEARCH IMPLEMENTATION AND FUNDING

To Whom It May Concern, This letter is officially issued by **The University of Kitakyushu, Japan**, to certify that the research entitled: ***“Environmental Impact of Waste-to-Energy Scenario in Developing Countries: A Case Study of Makassar, Indonesia”***

has been duly completed as part of an academic research activity in the fields of waste-to-energy, life cycle assessment, and environmental management in developing countries, with Makassar, Indonesia as the study area.

The research received financial and institutional support from The University of Kitakyushu, Japan. This funding was allocated to support the implementation of research activities, academic analysis, and preparation of the scientific manuscript. In particular, the article processing and publication charges for the resulting journal publication were covered by The University of Kitakyushu, amounting to **EUR 400.00 (four hundred Euro)**, paid to the *Journal of Ecological Engineering* as the open-access publication fee.

The research has been accepted and published as a peer-reviewed article in an international scientific journal, with the following details:

Article Title	: <i>Environmental Impact of Waste-to-Energy Scenario in Developing Countries: A Case Study of Makassar, Indonesia</i>
Journal Name	: <i>Journal of Ecological Engineering</i>
Volume / Issue	: Volume 25, Issue 10
Pages	: 62-75
Year of Publication	: 2024
Publication Fee	: EUR 400.00 (Four Hundred Euro)
DOI	: https://doi.org/10.12911/22998993/191668
Article URL	: https://www.jeeng.net/Environmental-Impact-of-Waste-to-Energy-Scenario-in-Developing-Country-Case-Study,191668,0,2.html

This statement letter is issued as official evidence that the above-mentioned research has been completed, has received funding support from The University of Kitakyushu, Japan, including the payment of publication charges amounting to EUR 400.00, and has resulted in a scientific publication in an internationally recognized journal.

This letter may be used as a supporting document for the accreditation process of the relevant Study Program at the respective university or institution, as well as for other legitimate academic and administrative purposes.

Issued in Kitakyushu, Japan, on 3 March 2025.

Sincerely,

北九州市立大学
松本(亨)研

Prof. Toru Matsumoto

Professor / Research Supervisor
